PROFILE

Interested in artificial intelligence and deep learning progressing. I am driven by my Effort, my ambitions and my self-reliance organizing events or any kinds of projects. I love to create. Doesn't matter whether digital designing, programming, or concerting further ideas. Those efforts help me developing myself and my knowledge continuously.

EDUCATION

Kaiserin-Friedrich-Gymnasium

Bad Homburg

Aug 2014 — Jun 2019

Started developing Python and basic HTML in 7th grade. Later this year I Joined the school leadership organizing benefit events, and taking lead in planning and executing them, which money got donated in cooperation with the World health organization.

Howe Sound Secondary

Squamish, BC

Aug 2019 — Jun 2020

taking Programming, Robotics and Digital media Arts as my main subjects I got more and more into not just the software, but also the hardware part. I learned more about Machine Learning and I started projects by combining Hard- and Software.

INTERNSHIPS

Marketing, Design and Advertisement, Bourros GmbH

Frankfurt am Main

Jun, 2018 and Feb 2019

- Worked well independently and on a team to solve problems.
- Worked with managers and business units to determine event and project budgets.
- Organized and prioritized work to complete assignments in a timely, efficient manner.

PROJECTS

Benefit Project

Kenya

Apr 2014

Organizing a benefit project for towns in Kenya, founding two fountains for water-extraction - Your math is right, I was 10 back then...

c0nnect

Mar 2020 — Jun 2020

Founding my first Tech-Startup. c0nnect changes the way friends interact and communicate. This app will be available for IOS and Android by Holidays 2020.
